

"Be the change you wish to see in the world" --Mahatma Gandhi

Fianna's Mission from the beginning was to be a progressive earth and people friendly company that provides spas, resorts, and medical communities with natural fiber uniforms.

Fianna strives to be the leader in natural apparel. We are out to prove that using natural fibers doesn't mean you have to sacrifice style. Our uniforms are durable, sustainable, and stylish.

As the world changes, Fianna continues its eco-standards. We constantly aim for improved eco-friendly practices. Fianna provides a clear choice for professionals who are reaching toward a healthier, more natural way of business.

Fiber Facts

- Hemp is the most environmentally positive crop, improving soil quality as it grows.
- Hemp requires no herbicides or pesticides and is naturally resistant to insects, fungus and other pests.
- Hemp clothing inhibits the growth of bacteria while wicking away moisture.
- Hemp fabric provides a protective screen from ultraviolet, microwave, sound wave and light wave. It can reduce the ultraviolet ray at a rate of more than 99.9%.
- Unlike synthetic fibers, hemp is biodegradable.
- The nature of the fiber helps to keep you cool and comfortable.
- Hemp is the most durable fiber on earth, making it an ideal choice for uniforms.

Fianna's Footprint

- Creates Employment for Women.
- Each garment consists of over 90% sustainable biodegradable materials.
- No GMOs (Genetically Modified Organisms).
- Prevents ecological destruction.
- Sweatshop free.
- U.S. manufactured.
