

Sacred Earth Botanicals' mission is to promote a line of professional massage therapy products with a focus on certified organic ingredients, environmentally friendly packaging, and sustainable business practices. We offer our customers peace of mind knowing their massage products have been thoughtfully developed with the health of the therapist, client, and the environment in mind. Our facility is certified organic by the Oregon Tilth and the USDA. All of our products (except lip balms) are certified by the Vegan Awareness Foundation.

Organic products are grown under strict standards whose principles are founded in sustainability and are grown without synthetic pesticides or herbicides, which is gentler on the earth than conventional farming methods.

Here are just a few ways we show our commitment to the environment:

- Our production facility runs on 100% renewable power (wind, solar and wave).
- Our 8oz bottles are made from 100% post consumer recycled plastic.
- We use only paper made from recycled and renewable sources without chlorine.
- All of our shipping and display boxes contain a high content of post consumer recycled cardboard.
- Our brochures are printed with soy ink on recycled/renewable paper.
- We recycle or reuse everything we possibly can, including packaging materials sent to us by our vendors.
- We have just completed a rain water collection system to water our organic garden and landscaping.
