

Soothing Touch has the following earth-friendly practices in place at its facility:

- It recycles and reuses all cardboard, glass, and plastic.
  - It returns or reuses all bulk containers.
  - It recycles its production water.
- It has installed automatic dimming in warehouse.
  - It has installed low energy bulbs.
  - It uses eco-friendly detergents.
- It has installed rainwater catchment system.
  - It xeriscapes its property.
- Converted production water heating system to natural gas.
- Replaced all filling machines with newest technology, energy efficient models.
  - All "residue" oil from production is captured and recycled locally.
    - Uses biodegradable "peanuts" for shipping.
